Olise Omodi

Servant of God | Full-Stack Web Designer & Data Scientist
| Leveraging Data-Driven Insights to Create Engaging User
Experiences | Certified in Frontend, Backend & Digital Marketing.
Abuja, Federal Capital Territory, Nigeria

Summary

As a versatile professional with a unique blend of expertise in web
design, data science, and mathematics, I specialize in building digital
solutions that are both beautiful and intelligent. My passion lies in
solving complex problems—whether it's architecting a scalable web
application with Laravel, deriving actionable insights from data, or
optimizing a user interface for seamless engagement.

I am a certified Full-Stack Web Developer with a strong foundation
in modern frameworks like React and Next.js, and a deep
understanding of databases like PostgreSQL and SQL. My
experience as a Mathematician and Data Scientist allows me to bring
a data-driven approach to every project, ensuring that the design
and functionality are always backed by solid logic. I am always
available for new opportunities and collaborations where I can apply
my diverse skill set to deliver exceptional results.

Experience

Slyvaconsults Ltd Abuja
Web Designer
January 2025 - Present (8 months)
Federal Capital Territory, Nigeria

Designed and built responsive websites from scratch, ensuring seamless
performance and consistent branding across all devices. Collaborated directly
with clients to understand their vision and translate their business goals into
a compelling online presence. Optimized website performance and user
interface (UI) design to improve engagement and conversion rates.
